ABOUT THE COMPANY

Bringing India's finest harvest to the world.

Srinivasa Enterprises is a trusted importer and exporter based in Visakhapatnam, Andhra Pradesh, building bridges between Indian farms and international markets.

Our sourcing network spans fifteen-plus states across the subcontinent — from the mango belts of Andhra Pradesh and the orchards of the Himalayan foothills, to the millet fields of Karnataka and the rice bowls of Punjab. Every shipment is hand-picked at peak ripeness, quality-checked against export standards, and packaged for the long journey to your shelves.

We specialise in three categories: tropical and seasonal fruits, traditional and modern vegetables, and heritage grains including basmati, millets, wheat, and ancient cereals. Whether you are a retailer, wholesaler, or food processor, we partner with you to deliver consistent quality at dependable volumes.

01

Farm-direct sourcing

Relationships with growers across 15+ Indian states ensure traceability and peak freshness.

02

Export-ready quality

Rigorous grading, cold-chain handling, and packaging built for global logistics.

03

Reliable partnership

Consistent volumes, transparent pricing, and responsive service through every season.

CORE CAPABILITIES

Sourcing

Nationwide farmer network across 15+ Indian states, covering seasonal and year-round produce.

Quality Control

Multi-stage grading, pest and residue checks, and adherence to international export standards.

Cold Chain

Pre-cooling, reefer containers, and temperature-controlled handling for perishable produce.

Packaging

Export-grade cartons, crates, and custom labelling built for sea and air freight durability.

Documentation

Phytosanitary certificates, certificates of origin, and complete export documentation handled in-house.

Logistics

Direct access to Visakhapatnam Port with established freight forwarder relationships.
