TRUSTED IMPORTER & EXPORTER · LET'S GROW GLOBALLY

2026 · COMPANY BROCHURE

ABOUT THE COMPANY

Bringing India's finest harvest to the world.

Srinivasa Enterprises is a trusted importer and exporter based in Visakhapatnam, Andhra Pradesh, building bridges between Indian farms and international markets.

Our sourcing network spans fifteen-plus states across the subcontinent — from the mango belts of Andhra Pradesh and the orchards of the Himalayan foothills, to the millet fields of Karnataka and the rice bowls of Punjab. Every shipment is hand-picked at peak ripeness, quality-checked against export standards, and packaged for the long journey to your shelves.

We specialise in three categories: tropical and seasonal fruits, traditional and modern vegetables, and heritage grains including basmati, millets, wheat, and ancient cereals. Whether you are a retailer, wholesaler, or food processor, we partner with you to deliver consistent quality at dependable volumes.

01

Farm-direct sourcing

Relationships with growers across 15+ Indian states ensure traceability and peak freshness.

02

Export-ready quality

Rigorous grading, cold-chain handling, and packaging built for global logistics.

03

Reliable partnership

Consistent volumes, transparent pricing, and responsive service through every season.

CORE CAPABILITIES

Sourcing

Nationwide farmer network across 15+ Indian states, covering seasonal and year-round produce.

Quality Control

Multi-stage grading, pest and residue checks, and adherence to international export standards.

Cold Chain

Pre-cooling, reefer containers, and temperature-controlled handling for perishable produce.

Packaging

Export-grade cartons, crates, and custom labelling built for sea and air freight durability.

Documentation

Phytosanitary certificates, certificates of origin, and complete export documentation handled in-house.

Logistics

Direct access to Visakhapatnam Port with established freight forwarder relationships.

WHY PARTNER WITH US

Built for global trade.

From field to freight, every step is designed for export reliability.

01

Nationwide sourcing network

Direct farm relationships across 15+ Indian states give us visibility into harvests and the flexibility to shift sourcing as seasons rotate.

02

Export-grade quality control

Multi-stage grading, cold-chain handling for perishables, and packaging engineered for sea and air freight durability.

03

Broad seasonal coverage

104 product varieties across three categories means we can fulfil diverse buyer baskets without gaps year-round.

04

Heritage + modern varieties

Alphonso, Banganapalli, Kesar, Ragi, Foxtail and Kodo millets — alongside mainstream staples for global retail and processing.

05

Volume flexibility

Container loads to recurring programmes — we scale with your needs and maintain transparent pricing across tiers.

06

Responsive partnership

Single point of contact, timely updates, and accountable service through documentation, despatch, and delivery.
